Testimonial for Tina Dulieu – Coaching Dynamics

When I met Tina, I was struggling to organise myself although I knew my business had potential I “couldn’t see the wood for the trees” Tina has changed all that for me and has truly “Challenged me to be Successful”

I really feel that Tina is as passionate about the Success and Growth of Lily Pins as I am.

Tina has improved both my confidence and my profit margin; she has a solution or suggestion for all challenges/problems.

I now have a clear positive approach to my business and truly believe that having Tina on board is indeed a “necessity” and not a “luxury”

Tina’s support, guidance, counselling and friendship has been inspirational to me over the last six months and my leadership skills have improved a great deal as a result.

Tina is professional, patient and understanding and has a very calming influence on me especially at those times when I feel a little overwhelmed by being a Business Owner, knowing that Tina and her words of wisdom or “Dulieu Fairy dust” ☺ is there for me is invaluable.

Thank you Tina for helping me make my dreams a reality.
